Mrs. Chitkasem has informed the Meeting that the Company has been using the principle of Book closing stipulated in Section 60 of the Public Company Limited Act, B.E. 2535 and in conjunction with Article 12. of the Articles of Associations of the Company in determining the person eligible to attend the shareholders' meeting and in preparing the list of shareholder eligible to attend the same under the Securities and Exchange Act B.E. 2535. In such principle, the Company is required to close the Share Transfer Book for not more than 21 days and continuously until the meeting is finished. However, the Securities Exchange Act B.E. 2535 amended by the Securities and Exchange Act (No.4) B.E. 2551 section 89/26 supports the use of Record Date principle in determining the person eligible to attend the meeting of shareholders in place of Book closing. By using Record Date principle, the board of directors of a listed company will determine the Record Date not more than 2 months prior to the meeting of the shareholders and the Book Closure Date, in order to prepare the list of person eligible to attend the meeting of the shareholders under the Securities and Exchange Act B.E.2535 Section 225, only one day after the Record Date. This would result in the shorter period of Book closing (only one day) as opposed to not exceeding 21 days continuously until the meeting of shareholder is finished in previous system. It will have more benefits to the shareholders of a listed company. The Board of Directors' meeting of Oishi Group Public Company Limited no. 1/2557 held on 25 February 2014 has considered and approved to propose to the Annual General Meeting of Shareholders for its approval of the amendment of Article 12 of the Articles of Association of the Company in order to be in line with the Securities and Exchange Act (No.4) B.E. 2551 section 89/26 supporting the use of Record Date principle.

Proposed Article 12. for amendment

“Article 12. In the meeting of the shareholders, the person eligible to vote shall be the shareholders whose name listed in the shareholders Book as of the date determined by the Board of Directors. The number of shares that each shareholder may vote shall be as appear in the shareholders Book of the same date. As for the situation of declining net profit, it is due to the high level of competition in beverage business resulting in higher sale expenses, higher operation expenses in order to maintain its market share. Nevertheless, the Company is also trying to manage the budgets and expenses. He then asked Mr. Paisarn Aowsathaporn to explain the situation of seaweed business and overall situation of restaurant business.

The Company also decided to stop such business. As for the expansion to ASEAN market, the Company has studied the consumer behavior which is different in each individual country. We already sold our products in Laos and Cambodia and starting to sell in several countries including Malaysia, Singapore and Myanmar. Our 5 years plan is to be the leader in the market. As for the increasing of our production capacity, the Company will consider again taking into account of the sale volume and market growth. Should the increase would help cost efficiency, the Company will consider it. Nevertheless, as of present, our current production capacity is sufficient to supply our products within the country and ongoing overseas market.

Mr. Thaveechat Jurangkool, the shareholder, has inquired about the plan and strategy to be 'full-service' Japanese restaurant. Mr. Thapana has explained to the Meeting of overall business that the Company is a leader in Japanese buffet style restaurant which is accessible by consumers. The management team always emphasizes to develop the concept and try to add variety to the products so that we can reach more customers. The key point is that the Company is trying to build brand awareness and branding that should ensure our position as a leader both in Japanese restaurant business and beverage business.

In general, beverage business is facing high level of competition. The Company's missions are to maintain its market share and to grow the same. Such missions resulting higher expenses in marketing activities and thus lower net profit. However, with its strong financial status, the Company can continuously invest in brand awareness, marketing promotion and product innovation in order to add its competitive advantage and maintain its status as a market leader. This would be benefit to the Company in a long run. The Company also use business synergy between the Company's affiliates, for example, distribution of our products in Malaysia. It also assists the Company in receiving the information of the consumer in the area. The Company can then develop the products to serve the need in that particular area and also expand its customer base to new other groups in ASEAN countries and those customers via electronic channel. Innovation of product such as Kabusecha, the premium green tea product, is also an example of how the Company try to cover all segment and channel of the market. In addition, the Company also emphasizes in developing new business such as expanding its business to Quick Service Restaurant. The shareholders can rest assure that all these plans and strategies would allow the Company to be the leader both in Japanese food business and beverage business. In case that the shareholder have any more query or require any further information, they are welcomed to join the investors session held regularly by the Company.
